

Name:

Date:

Google-Earth Day 3

Learning Targets:

- ◆ Use Google-Earth to describe the relative location of places in relation to Ohio or Cleveland.
- ◆ Use Google-Earth to measure the distance from Ohio to other places in the world.
- ◆ Describe some of the landforms found in Ohio as you travel from Ohio to other places in the world.

Place 1 (in Ohio)	Place 2 (anywhere of interest)	Intermediate Directions from Place 1 to Place 2	Distance from one place to the other ("as the crow flies")	Landforms you would cross when traveling from Place 1 to Place 2	Other "Ah-Ha's" or "WOW" facts
Cleveland, Ohio	Columbus, Ohio	South-west	125 miles 201,000 meters	Grassy plains	Columbus is the capital of Ohio!
